Investment Objective, Policy and Restrictions

Investment Objective

The Investment Objective of the Sub-Fund is to achieve medium to long term capital appreciation. The Sub-Fund will seek to achieve this investment objective primarily through investment in a diversified portfolio of securities issued by companies with recognised brands and in particular those companies that are directly or indirectly associated with the discretionary consumer goods and services sector. The list of Approved Regulated Markets is included as Appendix 3 to the Prospectus.

At any time, the Investment Objective of the Sub-Fund will only be varied with the consent in writing of a simple majority of the holders of issued Investor Shares in that Sub-Fund or with the sanction of an Ordinary Resolution passed at a meeting of that Sub-Fund. Any changes to the Investment Objectives require the prior approval of the MFSA.

There is no guarantee that the investment objective of the Sub-Fund will be achieved and investment results may vary substantially over time.

Investment Policy

The Sub-Fund will seek to attain its Investment Objective by investing in the Transferable Securities of companies producing goods and services with a common 'discretionary consumer theme' across differing industry sectors.

The Sub-Fund will primarily invest in a diversified portfolio of companies which have a minimum market capital of over €1 billion, at the point of investment and are listed on an Approved Regulated Market and these holdings will comprise the core holdings of the portfolio. Up to 20% of the portfolio may be invested in companies which are capitalised at less than €1 billion including via initial public offerings and of such 20%, of the portfolio, up to one half may be invested in securities which intend to list within 12 months of purchase.

Investment in transferable securities will be made directly. Any investments in FDIs will not be synthetic and will be used for efficient portfolio management purposes only and not for investment purposes.

The Investment Committee will keep under review and, may, from time to time amend the asset allocation as it may consider necessary with a view to achieving the Sub-Fund's Investment Objective.

For the purposes of Risk Management the Sub-Fund may also, from time to time, invest its assets in debt securities, money market instruments, money market or cash funds, and cash deposits, if, in the opinion of the Investment Committee, the prevailing market and economic conditions warrant the adoption of such a policy. Any such securities, instruments, funds or deposits will have the effect of reducing the Sub-Fund's exposure to the securities of companies with recognised brands and that are directly or indirectly associated with the Discretionary Consumer Goods and Services Sector. Debt securities invested in during such periods of attempted risk reduction will primarily consist in investment grade sovereign or corporate bonds without bias towards any particular sovereign or market sector. The Sub-Fund may also invest in forward currency FDIs to hedge currency movements against certain investments held by the Sub-Fund.

The Directors may, at their sole discretion, alter the Investment Policies set out above, provided that any material change thereof shall be notified to Shareholders of the Sub-Fund in advance of the change. Any changes to the Investment Policies require the prior approval of the MFSA.

- (ii) any amendment to the investment objectives of a Sub-Fund (to the extent that the holders of Investor Shares are members of such Sub-Fund); and
- (iii) the appointment of directors nominated by the Founder Shareholders and, or removal of directors.

The holders of Investor Shares shall be entitled to participate in the assets of the Sub-Fund and where applicable in any dividends and distributions of the Sub-Fund. All Investor Shares participate equally in the net assets of the Class and Sub-Fund. Shareholders only have rights to participate, pro-rata, in the assets of Sub-Funds and have no rights against the assets of other Sub-Funds in which they have no Investor Shares.

The holders of Founder Shares have the right to receive notice of, attend and vote on any matter requiring the approval of Shareholders generally as contained in the Memorandum and Articles and applicable law. Holders of Founder Shares are not entitled to participate in any dividends or other distribution of the Company or in the assets of the Company on a winding up (other than the return of the paid up capital after payment of all amounts due to the holders of Investor Shares).

Share Capital and Accounts

All amounts received by the Company on the issue of Investor Shares, initially and subsequently, will be credited as share capital of the Company and will form part of the NAV of the Sub-Fund. Separate accounts are kept for the assets of the Sub-Fund.

Access to information

The Investment Manager may, with the consent of the Company, grant certain Shareholders, including, without limitation, those deemed to involve a significant or strategic relationship, additional information and reporting. Fractional Investor Shares will be consolidated into whole Investor Shares when a Shareholder holds enough fractional Investor Shares to make up a whole Investor Share. With the exception of voting rights, the holders of fractional Investor Shares carry the same rights as integral shares of the same Class and exercisable in proportion to the fraction held.
