

KEY INVESTOR INFORMATION

GBP C CLASS

This document provides you with key investor information about the Dominion Global Trends – Luxury Consumer Fund (“Luxury Consumer Fund”).

It is not marketing material. The information is required by law to help you to understand the nature and risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

Dominion Global Trends – Luxury Consumer Fund a sub-fund of Dominion Global Trends SICAV p.l.c.

Luxury Consumer GBP C Class – (ISIN: MT7000019667). This Sub-Fund is self-managed.

Luxury Consumer Fund was previously known as Dominion CHIC Fund and Dominion Global Trends – Consumer Fund. The Sub Fund changed name on 17th August 2012 and 9th June 2014 respectively.

Objectives and Investment Policy

The Luxury Consumer Fund will seek to attain its Investment Objective by investing in the Transferable Securities of companies producing goods and services with a common ‘discretionary consumer theme’ across differing industry sectors.

The Fund will primarily invest in a diversified portfolio of companies which have a minimum market capital of over €1 billion, at the point of investment and are listed on an Approved Regulated Market and these holdings will comprise the core holdings of the portfolio. Up to 20% of the portfolio may be invested in companies which are capitalised at less than €1 billion including via initial public offerings and of such 20%, of the portfolio, up to one half may be invested in securities which intend to list within 12 months of purchase.

Investment in transferable securities will be made directly. Any investments in FDIs will not be synthetic and will be used for efficient portfolio management purposes only and not for investment purposes.

For the purposes of Risk Management the Fund may also, from time to time, invest its assets in debt securities, money market instruments, money market or cash funds, and cash deposits, if, in the opinion of the Investment Committee, the prevailing market and economic conditions warrant the adoption of such a policy. Any such securities, instruments, funds or deposits will have the effect of reducing the Fund’s exposure to the securities of companies with recognised brands and that are directly or indirectly associated with the Discretionary Consumer Goods and Services Sector. Debt securities invested in during such periods of attempted risk reduction will primarily consist in investment grade sovereign or corporate bonds without bias towards any particular sovereign or market sector. The Fund may also invest in forward currency FDIs to hedge currency movements against certain investments held by the Fund.

The Fund does not seek to obtain its Investment Objective through borrowing.

Risk and Reward Profile

The above risk and reward indicator rates this Share Class as category 5 meaning that it offers a relatively higher risk of making a loss but also a relatively higher chance of making gains. It should be noted that even the lowest category on the indicator does not mean risk free.

Luxury Consumer Fund’s rating on this indicator is based on historical data and therefore may not be a reliable indication of the risk profile of Luxury Consumer Fund in the future. Further, the rating shown is not guaranteed and may change over time.

Luxury Consumer Fund’s rating reflects the nature of its investments and the corresponding risks to which it is exposed. These risk factors, which include the following risks, may affect the value of Luxury Consumer Fund’s investments or expose it to losses:

Investment Risk

The price of the Shares and the income (if any) from them may go down as well as up reflecting the risk of investing in international markets and that investors may not receive back the amount that they originally invested.

Currency Risk

Any investments in international companies will mean that changes in currency exchange rates will have an impact on Luxury Consumer Fund.

Discretionary Consumer Sector Risk

The value of companies exposed to this sector may be affected by changes in consumer spending patterns around the world, increased political and social unrest and changes in government policies.

Counterparty Risk

Currency forward contracts, swaps and other forms of FDIs are not guaranteed by an exchange or its clearing house. Consequently, there are no requirements with respect to record keeping, financial responsibility or segregation of customer funds and positions. The business failure of a counterparty with which the Company has entered into “a trade” will most likely result in a default. The default of a party with which the Company has entered into “a trade” will force the Company to cover its resale or repurchase commitments, if any, at the then current market price. The Company is also exposed to the risk of failure by a counterparty to perform its obligations under an OTC FDI contract. Transactions in over-the-counter markets are not subject to the same regulatory oversight as exchange-based markets.

Efficient Portfolio Management Risk

The entry into derivative or forward transactions in a currency for the purposes of efficient portfolio management involves certain risks such as movement in interest rates, price of investments being hedged and the correlation between those types of investments and equities.

Such techniques may improve the return on invested capital but may also increase the risk of losses to the Sub Fund.

Business Risk

In certain circumstances if the Net Asset Value of the Company falls below €20 million (or €5 million in the case of a class of shares) on each dealing day within a consecutive 6 month period the shares in the Company or the class may be compulsorily redeemed.

Credit Risk

Investors should be aware that an investment might involve credit risk. Debt securities held for a Sub-Fund involve credit risk represented by the possibility of default by the issuer. This risk may be evidenced by the issuer’s credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated and/or unsubordinated securities. In the event that any issuer of debt securities experiences financial or economic difficulties, this may affect the value of the relevant securities (which may be zero) and any amounts paid on such securities (which may be zero). This may in turn affect the NAV per Share.

The approach to calculating the Risk and Reward Profile as above uses historic data. This methodology cannot accurately reflect the Counterparty Risk, Efficient Portfolio Management Risk, Business Risk and Credit Risk. Full details of these Risks amongst others, can be found in the Section entitled ‘Risk Factors’ in the Sub Fund’s Prospectus. The section entitled ‘Practical Information’ below explains how you may obtain a free copy of the Prospectus and other useful information.

Charges

The charges you pay are used to pay the costs of running Luxury Consumer Fund, including the costs of marketing and distributing it.

These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest¹

Initial Charge	None
Exit Charge	Up to 6.5% of the Subscription Amount

1 This is the maximum that might be taken out of your money before it is invested/before the proceeds of your investments are paid out.

Charges taken from the fund over each year²

Ongoing Charge	-3.51%
----------------	--------

2 This figure may vary from year to year.

Charges taken from the fund under specific conditions

Performance Fee	None
Switching Fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

The ongoing charge figure is based on expenses for the year ending 31 December 2024. This figure may vary from year to year. It generally excludes Portfolio transaction costs, except in the case of an entry/exit charge paid by Luxury Consumer Fund when buying or selling units in another collective investment undertaking.

For more information regarding charges, please see the Section entitled “Fees, Compensation and Expenses” in the Sub-Fund’s Prospectus. The section entitled “Practical Information” below explains how you may obtain a free copy of the Prospectus and other useful information.

Past Performance

The chart shows the investment returns of the Luxury Consumer Fund GBP C Class. In general any past performance takes account of all ongoing charges but not entry/exit charges. The class was launched on 3 May 2017. The past performance of this class is calculated in sterling.

Past performance is not a reliable indicator of future performance.
