What is this product?

Product Type: Open-ended collective investment scheme

Investment Objective: The Investment Objective of the Sub-Fund is to achieve medium to long term capital appreciation. The Sub-Fund will seek to achieve this investment objective primarily through investment in a diversified portfolio of securities issued by companies with recognised brands and in particular those companies that are directly or indirectly associated with the discretionary consumer goods and services sector.

There is no guarantee that the investment objective of the Sub-Fund will be achieved and investment results may vary substantially over time.

Investment Policy: The Luxury Consumer Fund will seek to attain its Investment Objective by investing in the Transferable Securities of companies producing goods and services with a common 'discretionary consumer theme' across differing industry sectors.

The Sub-Fund will primarily invest in a diversified portfolio of companies which have a minimum market capital of over €1 billion, at the point of investment and are listed on an Approved Regulated Market and these holdings will comprise the core holdings of the portfolio. Up to 20% of the portfolio may be invested in companies which are capitalised at less than €1 billion including via initial public offerings and of such 20%, of the portfolio, up to one half may be invested in securities which intend to list within 12 months of purchase.

Investment in transferable securities will be made directly. Any investments in FDIs will not be synthetic and will be used for efficient portfolio management purposes only and not for investment purposes. The Investment Committee will keep under review and, may, from time to time amend the asset allocation as it may consider necessary with a view to achieving the Sub-Fund's Investment Objective.

For the purposes of Risk Management the Sub-Fund may also, from time to time, invest its assets in debt securities, money market instruments, money market or cash funds, and cash deposits, if, in the opinion of the Investment Committee, the prevailing market and economic conditions warrant the adoption of such a policy. Any such securities, instruments, funds or deposits will have the effect of reducing the Sub-Fund's exposure to the securities of companies with recognised brands and that are directly or indirectly associated with the Discretionary Consumer

Goods and Services Sector. Debt securities invested in during such periods of attempted risk reduction will primarily consist in investment grade sovereign or corporate bonds without bias towards any particular sovereign or market sector. The Sub-Fund may also invest in forward currency FDIs to hedge currency movements against certain investments held by the Sub-Fund.

The Fund does not seek to obtain its Investment Objective through borrowing.

Income: The Directors do not anticipate that dividends will be paid on any Investor Shares within the Sub-Fund.

Buying and Selling: Investor Shares can be purchased/redeemed at the prevailing Subscription/Redemption Price, by submission to the Company a completed Subscription Application/Redemption Notice prior to the cut off time.

Currency: The Shares in the Sub-Fund are denominated in GBP.

Pricing: The calculation of the NAV of the Sub-Fund and of the NAV per Share shall be effected by the Administrator at each Valuation Point on every Subscription Day and Redemption Day and in such manner as is stated in the Prospectus.

Targeted Investors: The Sub-Fund is targeted for investors who are ready to assume moderate levels of risk and are willing to hold their investment for the medium to long term for five (5) years.

Maturity: The Company and the Sub-Fund have been established for an indefinite period of time.

Taxes: Luxury Consumer Fund is subject to Maltese tax laws. Depending on your country of residence, this might have an impact on how you are taxed on your investment. For further details, please speak to an adviser.

Further information about the Sub-Fund can be obtained from the Prospectus and related offering supplements as well as the latest annual and half-yearly financial reports. These documents are available free of charge in English. These documents alongside the NAV per share may be obtained from the Administrator.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for **5 years**. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early or you may have to pay significant extra costs to cash in early. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is the medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. There is no minimum guaranteed return. You could lose some or all of your investment. Reference is to be made to the section 'what happens if we are unable to pay you'.

The following risks are materially relevant but are not adequately captured by the synthetic indicator and may cause additional loss:

- **Investment Risk:** The price of the Shares and the income (if any) from them may go down as well as up reflecting the risk of investing in international markets and that investors may not receive back the amount that they originally invested.

- **Currency Risk:** Any investments in international companies will mean that changes in currency exchange rates will have an impact on the Luxury Consumer Fund.

- **Luxury Consumer Sector Risk:** It cannot be guaranteed that the luxury consumer sector will continue to rise in the future. It is also possible that the Fund may not be able to identify sufficient high-quality investment opportunities.

The value of the luxury consumer sector may be affected by uncertainties such as international political developments, changes in government policies, changes in taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investments may be made. Political unrest, acts of war, terrorism, internal or external tensions and any future actions of governments in any country could each affect the value of luxury consumer goods.

A For more information regarding risks, please see the Section entitled "Risk Factors" in the Sub-Fund's Prospectus.

This Risk and Reward section is not a guarantee that it will remain unchanged.

Performance Scenarios

The table below shows the money you could get back over the next 5 years, under different scenarios, assuming GBP10,000 per year, which illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Recommended Holding Period Investment: GBP10,000				
Scenarios		1 year	3 years	5 years
Minimum	There is no minimum guaranteed return, You could lose some or all of your investment.			
Stress Scenario	What you might get back after costs	6,406.22	5,895.00	6,698.39
	Average return each year	-35.94%	-16.15%	-7.70%
Unfavourable Scenario	What you might get back after costs	9,211.89	8,342.69	8,540.50
	Average return each year	-7.88%	-5.86%	-3.11%
Moderate Scenario	What you might get back after costs	10,884.62	12,093.31	13,821.54
	Average return each year	8.85%	6.54%	6.69%
Favourable Scenario	What you might get back after costs	12,876.49	17,476.13	22,329.89
	Average return each year	28.76%	20.45%	17.43%

These scenarios occurred between 2018 and 2024.

What happens if Dominion Global Trends SICAV p.l.c. is unable to pay out?

The Sub-Fund is a segregated portfolio whose assets and liabilities are to be treated as a patrimony separate from the assets and liabilities of each other sub-fund and of the Company. The Classes of the Sub-Fund do not constitute segregated portfolios. Please refer to the Prospectus for further details

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest GBP10,000. The figures are estimates and may change in the future.

Costs Over Time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

The costs are based on the following assumptions:

- In the first year you would get back the amount that you invested (0% Annual Return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment amount of GBP10,000.

Investment: GBP10,000			
Scenarios	if you cash in after 1 year	If you cash in after 3 years	If you cash in after 5 years
Total costs	243.00	828.59	1,481.59
Annual Cost Impact*	2.43%	2.43%	2.43%

* This illustrates how costs reduce your return each year over the holding period.

Composition of Costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period. It also shows the meaning of the different categories.

This table shows the impact on return per year			
One-off costs	Entry costs	The % of the amount you pay in when entering this investment.	None
	Exit costs	The % of your investment before it is paid out to you.	None
Ongoing costs [taken each year]	Management fees and other administrative or operating costs	The % of the value of your investment per year. This is an estimate based on actual costs over the last year.	2.43%
	Transaction Costs	The % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	None
Incidental costs	Performance fees [and carried interest]	The actual amount will vary depending on how well your investment performs.	None

How long should I hold it and can I take money out early?

Recommended Holding Period (RHP): 5 years

The RHP is based on our assessment of the risk and reward and time frame in which it is expected to achieve the investment objective of the Sub-Fund. Your specific risk appetite needs to be considered for any investments made. You may receive less than expected if you cash in earlier than the RHP. There is no guarantee that the investment objective of the Sub-Fund will be achieved and investment results may vary substantially over time.

How can I complain?

If you are not entirely satisfied and wish to make a complaint about this product, please visit <https://dominion-funds.com/contact/>. Alternatively, write to Dominion Global Trends SICAV p.l.c. registered office 171, Old Bakery Street, Valletta, VLT 1455.

Other relevant information

This Key Information Document is specific to the Luxury Consumer GBP I Class Investor Shares. Investors may switch to other classes of the Sub-Fund or other Sub-Funds of the Company. Details on how to switch are provided in the Prospectus. For further details, please speak to an adviser. Dominion Global Trends SICAV p.l.c. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus or Sub-Fund's Offering Supplement. Further information about the Sub-Fund can be found in the Prospectus and related Offering Supplement as well as the latest annual and half-yearly financial reports. These documents are available free of charge in English. These documents are available free of charge in English. These documents alongside the NAV per share may be obtained from the Administrator.

The Company has adopted a Remuneration Policy to ensure compliance with the UCITS Directive. This Policy imposes remuneration rules on staff and senior management within the Company whose activities have a material impact on the risk profile of the Sub Funds. The Remuneration Policy may be obtained free of charge on request from the Company or alternatively under each of the Sub-Fund's documents page on the Dominion website: www.dominion-funds.com.

Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. It can help you to assess how the fund has been managed in the past. You can download the past performance of the Sub-Fund by selecting 'Our Funds' on our website <https://dominion-funds.com/funds/luxury/>.
