Investors are directed to the Prospectus where the procedures relating to the Redemption of Investor Shares and the conditions applicable thereto are outlined.

Investor Shares can be redeemed at the prevailing Redemption Price, by submission to the Company at the office of the Administrator of the relevant and properly completed Redemption Notice before the cut off time for receipt of redemption instructions. Redemption requests received after the cut off time for receipt of redemption requests will be processed on the following Redemption Day.

In terms of the Memorandum and Articles, redemption requests and/or exchange requests are, once made, irrevocable. A Redemption Notice if accepted by the Company will be effective as at the applicable Redemption Day. Investor Shares shall be cancelled at 17:00 (CET) on the relevant Redemption Day and redemption requests will generally be settled within four (4) Business Day from the relevant Redemption Day.

Full details of the redemption process appear in the Section of the Prospectus entitled “**Redemption of Shares**”.

A specimen Redemption Notice will be provided upon request by the Administrator or by an Authorised Distributor and can be found on the Investment Manager’s website www.dominion-funds.com.

A Dilution Levy may be applied to the Redemption Price, if considered appropriate by the Directors, in order to ensure fairness between redeeming and remaining investors.

Sub-Fund Specific Liquidity Management Tools (“LMTs”)

For the purposes of the LMT framework described in the Prospectus, the Company has selected the following LMTs for the Sub-Fund (the “Sub-Fund Specific LMTs”):

- (i) a redemption gate (the “Redemption Gate”); and
- (ii) an Anti-Dilution Levy.

The Sub-Fund Specific LMTs may be activated, operated and deactivated in accordance with the LMT Policy of the Company, the Prospectus, this Offering Supplement and, where applicable, subject to such governance, oversight and approvals as may apply from time to time. The application of a Sub-Fund Specific LMT may affect investors’ ability to redeem Investor Shares, the timing of the processing of dealing requests and/or the timing of payment of redemption proceeds.

(i) Redemption Gate

For the purposes of this section, a “Redemption Gate” means a temporary and partial restriction of the right of Shareholders to redeem their Shares, whereby redemption requests are executed only up to a specified proportion, and the remaining portion is deferred in accordance with this Offering Supplement.

The Directors may, if justified having regard to the interests of the Sub-Fund and its Shareholders and in accordance with applicable law, determine to activate a Redemption Gate.

The Company may consider activating a Redemption Gate where the total net redemption requests received for a given Redemption Day [exceed ten per cent (10%) of the Net Asset Value of the Sub-Fund] calculated as at the relevant Valuation Point (the “Activation Threshold”).

For the purposes of this section:

- (i) “net redemption requests” means the aggregate value of redemption requests received for the relevant Redemption Day less the aggregate value of subscription requests received for the same date, where applicable;
- (ii) the relevant percentage shall be calculated by reference to the most recently available official Net Asset Value prior to the relevant Redemption Day.

Exceeding the Activation Threshold shall not automatically result in the activation of a Redemption Gate. The Investment Manager shall determine, having regard to the liquidity profile of the Sub-Fund’s assets, prevailing market conditions, expected cash flow and the best interests of the Shareholders, whether the activation of a Redemption Gate is necessary and proportionate as an LMT.

Upon activation of a Redemption Gate:

- (i) redemption requests shall be executed on a pro rata basis for all Shareholders submitting valid redemption requests for the relevant Redemption Day;
- (ii) the aggregate value of redemption requests executed on that Redemption Day shall not exceed the redemption gate limit determined by the Directors, on the advice of the Investment Manager, for that Redemption Day, having regard to the liquidity profile of the Sub-Fund's assets, prevailing market conditions, available liquidity and expected cash flows, and the need to ensure the fair treatment of Shareholders;
- (iii) all redemption requests shall be reduced proportionally so that each redeeming Shareholder has the same percentage of its redemption request executed.

The portion of any redemption request not executed as a result of the activation of the Redemption Gate (the "Deferred Portion") shall automatically be carried forward to the next Redemption Day and shall be treated as a redemption request received in respect of the next Redemption Day.

The Deferred Portion shall be processed in priority to redemption requests received for that subsequent Redemption Day but shall remain subject to the possible application of a Redemption Gate on the subsequent Redemption Day if the Activation Threshold is again exceeded.

No new redemption notice shall be required in respect of the Deferred Portion.

The Redemption Gate shall be temporary in nature and shall be assessed and reviewed periodically by the Company to ensure that it remains necessary and proportionate in the best interests of Shareholders.

The Redemption Gate shall cease to apply where the Company determines that the circumstances justifying its activation no longer exist and that the Sub-Fund is able to meet redemption requests in an orderly manner without prejudicing the interests of remaining Shareholders.

The Redemption Gate shall be applied uniformly to all affected Shareholders and Share Classes for the relevant Redemption Day.

(ii) Anti-Dilution Levy

The Directors may apply an Anti-Dilution Levy in order to protect the Sub-Fund (and its Shareholders) from the dilution of the Sub-Fund's assets and/or performance that may result from the costs of dealing (including, for example, transaction costs, bid/offer spreads, taxes and market impact) arising from net subscriptions or net redemptions.

The Anti-Dilution Levy may be applied on subscriptions, on redemptions, or on both, where the Company determines that it is in the interests of Shareholders as a whole, including where there are significant net flows, stressed market conditions, elevated transaction costs and/or reduced market liquidity. It may be activated on a Dealing Day where:

- (i) the aggregate amount of redemption orders exceeds the aggregate amount of subscription orders, resulting in net redemptions of more than fifty per cent (50%) of the Net Asset Value of the Sub-Fund; or
- (ii) the aggregate amount of subscription orders exceeds the aggregate amount of redemption orders, resulting in net subscriptions of more than fifty per cent (50%) of the Net Asset Value of the Sub-Fund.

In the case of net redemptions, the Anti-Dilution Levy shall be deducted from the amount paid to redeeming Investors. In the case of net subscriptions, the Anti-Dilution Levy shall be charged to subscribing investors.

The Anti-Dilution Levy shall be applied at a rate determined from time to time by the Company, which may seek the advice of the Investment Manager, and acting reasonably and in good faith, by reference to prevailing market conditions and the estimated dealing costs expected to be incurred by the Sub-Fund. The Anti-Dilution Levy shall not exceed zero point one per cent (0.1%) of the relevant subscription order or redemption order (as applicable), calculated on the gross value of such order (before deduction of the Anti-Dilution Levy), being (i) where the order is submitted as a value amount, the value amount stated in the order, and (ii) where the order is submitted as a number of Shares, the value of such Shares calculated by reference to the applicable Net Asset Value for the relevant Dealing Day.

Any Anti-Dilution Levy applied shall be for the account of the Sub-Fund (and not for the benefit of the Investment Manager) and shall be retained within the Sub-Fund.

Regulatory notification / reporting

Where applicable, the activation and/or deactivation of a Sub-Fund Specific LMT may give rise to regulatory notification or reporting requirements and the Company will comply with any such requirements as may apply from time to time.

Other LMTs

The Sub-Fund may also make use of other LMTs as set out in the Prospectus under the heading "Liquidity Management Tools".

The Offering (Continued)

Investors are directed to the Prospectus where the procedures relating to the Transfer of Investor Shares and the conditions applicable thereto are outlined.

1. Upon Investor Shareholder Request

A holder of Investor Shares may exchange all or part of such holding (the “**Original Shares**”) into Investor Shares in another Sub-Fund or in a different Class of Investor Shares of the same Sub-Fund (the “**New Shares**”).

An irrevocable request from a Shareholder to exchange Investor Shares shall be construed as being a request for the repurchase of the stated number of Original Shares (save that the repurchase monies shall not be released to the investor) and a simultaneous request for the proceeds from such repurchase to be applied in the purchase of New Shares as may be indicated. The exchange of Investor Shares shall take place on the same Dealing Day, or as otherwise agreed with the investor, at the relevant Subscription Prices.

Irrevocable conversion instructions addressed to the Company and received at the Administrator’s registered office in respect of the Sub-Fund before the cut off time for receipt of conversion instructions, if accepted by the Company, will be dealt at the Net Asset Value per Share as at the Valuation Point for the applicable Subscription Day / Redemption Day. Requests received after this time will, unless the Company otherwise agrees, be held over until the following Subscription Day / Redemption Day in relation to the New Shares / Original Shares. Irrevocable conversion instructions addressed to the Company and received at the Administrator’s registered office on a Business Day which is not a Subscription Day / Redemption Day in relation to the New Shares/ Original Shares, if accepted by the Company, will be carried over to the following Subscription Day / Redemption Day and dealt at the Net Asset Value per Share as at the Valuation Point for the applicable Subscription Day/ Redemption Day.

Full details of the process for the exchange of Investor Shares appears in the Section of the Prospectus entitled “**Transfer of Investor Shares**”.

2. Automatic Exchange of Investor Shares

A holder of Investor Shares subscribing for C Class Shares and / or D Class Shares (the “Original Shares”) shall have this holding automatically exchanged by the Company into B Class Shares (“New Shares”) in issue in the Sub-Fund, upon the lapse of 5 years from the anniversary of the investor’s initial subscription for the C Class Shares or the D Class Shares, as applicable. The exchange of Investor Shares will be effected automatically by the Company on the last Dealing Day of the calendar month on which the 5 th year anniversary from the date of original investment in the C Class Shares or the D Class Shares of the relevant investor would have elapsed.

No charges will be imposed on Shareholders in respect of the automatic exchange of Investor Shares.

Full details of the process for the exchange of Investor Shares appears in the Section of the Prospectus entitled “**Transfer of Investor Shares**”.

Late Trading and Market Timing

The Administrator will seek to ensure that the practices of late trading and market timing will be eliminated in relation to the distribution of Investor Shares. Cut-off times for application and redemption of Investor Shares will be applied and the Directors reserve the right to refuse a dealing instruction if, upon enquiry, they believe the investor to be engaged in market timing or late trading.

Pricing

The calculation of the NAV of the Sub-Fund and of the NAV per Share shall be effected by the Administrator at each Valuation Point on every Subscription Day and Redemption Day in such manner as is stated in the Prospectus under the section entitled “**Net Asset Value Calculation**”.

The NAV per Share will ordinarily be available from the Administrator by 16:00 (CET) on the Business Day immediately following the relevant Subscription or Redemption Day. The NAV per Share will also be available from the Investment Manager’s website www.dominion-funds.com and may be published on other sources from time to time, such as on Bloomberg.

The Overlay Manager may enter into an arrangement with a broker or dealer whereby the latter agrees that part of the dealing commission it earns will be redirected to one or more third parties, nominated by the Overlay Manager, as payment for services (such as operational and IT support in the context of FX transactions) that they have provided to or for the benefit of the Company. The Overlay Manager may only enter into similar arrangements where the payment to the third party(ies) (i) is designed to enhance the quality of the services provided to the Company and (ii) does not impair compliance with the Overlay Manager's duty to act in the best interest of the Company.
