Risk and Reward Profile

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Managed Fund. The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean “risk free”. For full details of the Managed Fund’s risks, please see the “Risk Factors” section of the Prospectus.

Risk Factors

The above risk and reward indicator rates this Share Class as category 5 meaning that it offers a relatively higher risk of making a loss but also a relatively higher chance of making gains. It should be noted that even the lowest category on the indicator does not mean risk free.

Managed Fund’s rating on this indicator is based on historical data and therefore may not be a reliable indication of the risk profile of Managed Fund in the future. Further, the rating shown is not guaranteed and may change over time.

Managed Fund’s rating reflects the nature of its investments and the corresponding risks to which it is exposed. These risk factors, which include the following risks, may affect the value of Managed Fund’s investments or expose it to losses:

Investment Risk

The price of the Shares and the income (if any) from them may go down as well as up reflecting the risk of investing in international markets and that investors may not receive back the amount that they originally invested.

Currency Risk

Any investments in international companies will mean that changes in currency exchange rates will have an impact on Managed Fund.

Managed Investment Risk

It cannot be guaranteed that investments in global strategic trends will generate continued growth in the future. It is also possible that the Fund may not be able to identify sufficient high-quality investment opportunities.

For more information regarding risks, please see the Section entitled “Risk Factors” in the Sub-Fund’s Prospectus. The section entitled “Practical Information” below explains how you may obtain a free copy of the Prospectus and other useful information.

Glossary

TER: The Total Expense Ratio is the percentage of the net asset value (NAV) of the class of the Fund incurred as expenses relating to the administration of the Fund. A higher TER does not necessarily imply a poor return, nor does a low TER necessarily imply a good return. A current TER may not be an accurate indication of future TERs.
